We, the Premier and former Premiers of Nova Scotia would like to join Mr. Bouman in honouring the First Nations people of our country. We would also like to jointly congratulate him on his book "Friends United".

We share his vision to promote through Native art and culture, a mutual understanding and acceptance for all peoples of our country and the world at large. We consider this book a great step forward in introducing First Nations and their culture internationally.

We are very pleased that this project was initiated and wish the featured artists and Mr. Bouman the very best in their future endeavors.
